Computer Programming

Girls High - Philadelphia, PA
Diploma: Computer Science

06/2019

PROFESSIONAL SUMMARY

As a motivated and enthusiastic beginner coder, I am seeking an opportunity to kickstart my career as a Front End Developer. With a strong foundation in coding and a certification from University of Minnesota bootcamp, I am eager to contribute my skills and passion for creating captivating web experiences to a dynamic development team.

SKILLS

- Proficient in HTML, CSS, and JavaScript, with the ability to create responsive, visually appealing web pages.
- Strong understanding of front-end development tools and frameworks, including Bootstrap and React.
- Experience in version control with Git and collaboration through platforms like GitHub.
- Familiarity with web design principles, UX/UI concepts, and responsive web design.
- Solid problem-solving and troubleshooting abilities, with a keen eye for detail.
- Effective communication and teamwork skills, honed through collaborative projects.
- Successfully completed a comprehensive front-end development bootcamp.
- Received a certification for mastering core coding skills and web development.

WORK HISTORY

Customer Service | Target - Philadelphia   *10/2019 - Current*

- Navigated multiple computer systems expertly to handle customers' sales and service needs.
- Completed call documentation while speaking with customers.
- Developed technical and mechanical proficiency to assist customers and field staff with service issues.
- Handled sales paperwork and payments with high degree of accuracy to minimize recordkeeping errors.
- Offered knowledgeable insight into available products and services as well as competitor activities to help consumers make informed decisions.
